Subject: Cancellation of Reclamation Surety, Lone Star Industries (Utah Portland Cement) Mining Company, Little Mountain Mine (M/045/005) and Quarry Antone (M/045/021), Tooele County, Utah

Dear Mr. Simmons:

On September 7, 2004, we received notification from Safeco Insurance Company that they will not renew the surety bonds () and () posted as reclamation surety for Lone Star Industries Mining Company's Little Mountain Quarry and Quarry Antone mine sites respectively, located in Tooele County, Utah. The Safeco surety will be cancelled effective November 30, 2004.

The Utah Mined Land Reclamation Act requires an adequate surety be maintained for all mining operations until the mine site is successfully reclaimed, allowing bond release. You are hereby advised that we must receive a replacement form of surety within 60 days or prior to November 7, 2004, for these two sites or we will be forced to start surety forfeiture proceedings.

Please contact me at (801) 538-5325 or Joelle Burns at 538-5291 to discuss this situation further and to inform us of your intentions. Thank you for your consideration and prompt attention to this important permitting requirement.

Sincerely,

Daron R. Haddock
Permit Supervisor
Minerals Regulatory Program
